Copy of NWQIFY2015-ah.xlsx

And Happy Holidays to you as well!

Regarding 319, I think it would be good for us to talk as well. Did Ivan share with you the 319 Activity Calendar we developed a few weeks ago. I think that is a good starting point. I do think we need to get together to develop the “leverage exemption” approach, and we should discuss the annual report as well. Actually, there are lots of things we could talk about. It might be good for us to meet in person to discuss many of the items on the activity calendar. I do believe that things will start getting very busy after the first of the year so the sooner we get it on our calendars, the better we will be.

Aside from 319 planning, I provided some comments on your draft NWQI report. My comments appear in the first watershed report but apply to all of three of the watersheds.

Give me a call if you have any questions.

Again, Happy Holidays and I look forward to working with you in 2017.

Alan

Thanks Alan

Yes they have been short staffed and seem to be happy to have me back 😊

I would like to set up a conference call with you soon also. It looks like I'll be helping with 319 50/50 leverage exemption and annual reporting as well. I'll send a meeting request soon.

Happy holidays –

Koto

Thanks Koto and welcome back!

I am sure everyone at DEQ, especially Gene and Ivan, are happy to have you back with them. I am also glad you figured out the timing scope because it is from 10/15 thru 9/16. I will take a look at this and if I have any questions, I will get back with you.

Have a great Holiday Season.

Alan

Alan

Here is the draft NWQI report from DEQ. I need Adam Coutu's assistance to figure out the answers to questions 5 and 6 for 15 mile, and he won't have time until after the new year. Please feel free to review the rest of the document and let me know if you have any suggested edits or questions.

I did figure out that FY 2015 covers October 2015 to September 2016.

Thanks,

Koto

Alan

Again, my apologies for the delay in submitting this report to you.

I have a couple of questions about the NWQI report.

- Partnership overall : It is difficult to generalize the answers to the questions in this section. I broke down the answers for each NWQI watershed. Is this ok with you?
- The description for question #5 indicates FY2015 covers October 2014 to September 2015. Is that correct? If you are interested in the progress made during Oct 2015 and September 2016, please let me know.

Thank you,

Koto

Hi Alan

I came back from my leave recently and have not had a chance to take a look at what we have so far. I may need to reach out to a couple of basin coordinators still.

I hope to send you the report by the end of this week (10/23).

Thanks and my apologies -

Koto

Good morning Alan

I have received the tables from Tonya, but have not finalized them. Will do it this morning and forward them to you.

Hi Jayne,

That is correct, we have Alaska, Idaho and Washington, but we have not received Oregon's form. Thanks for checking in on this.

Happy Holidays!

Hi Erika,

I know you received forms from Alaska, Idaho and Washington. Have you received Oregon's form yet?
